LSF hosts PAAKA General Assembly 2014

Lupon School of Fisheries hosted teams, the North and the South. The Carmelo delos Cientos National Trade School, Wangan National Discipline Program cum PAAKA TESDA XI General assembly and PHIL and P.O. Sur composed the South while P.O. Davao del Norte, P.O. Davao Oriental, P.O. Comval, DNAS and LSF composed the North team. In the evening of the first day was the general assembly discussing the proposed hospitalization program for the PAAKA members and the election of new set of officers.

During the first day, there were individual, group and parlor games participated by the members who were divided by two

TESDA-LSF supports ecological solid waste management act

Pursuant to the implementation of RA 9003 otherwise known as Ecological Solid Waste Management Act spearheaded by the Department of Environment and Natural Resources, the Lupon School of Fisheries signed a memorandum of commitment on May 13, 2014 together with the other various government agencies in support to the said republic act.

The other government agencies were Department of Interior and Local Government, Department of Agriculture,

must be an environmental advocate especially in the education sector. Educators must impart and inculcate in the minds of the students the importance of caring for Mother Earth.

The Lupon School of Fisheries is actively involved in the implementation of RA 9003 in line with the prac-

The undertaking was aimed to determine the number of kilo-

Commission on Higher Education, Department of Trade and Industry, Department of Health, National Economic Development Authority, Philippine National Police, Public Information Agency, Department of Public Works and Highways, Department of Education, Department of Science and Technology, Kinaiyahan Foundation Inc., and the University of South-eastern Philippines.

The joint efforts aim to mitigate the effect of climate change resulting to global warming. It is enjoined that every government employee

tice of 5S of Good Housekeeping as mandated by TESDA. The school institutionalized the solid waste management, hence, the practice of proper waste segregation (biodegradable, non-biodegradable, and the recyclable). Furthermore, 5S contest has been launched to emphasize the objectives of the school to support RA 9003.

To put the observance of the said program into real action, the school sent some students during the Municipal Waste Assessment and Characterization Study (WACS).

grams of waste generated in the municipality of Lupon both from the residencies and business establishments.

The proper Solid Waste Management may be hard to implement in all parts of the country with 100% success, but with the strong and consistent support of every agency, the time will come when the solid wastes that used to be eyesores in any corner will be utilized as additional source of income as organic fertilizers or recycled materials.
